

— Creative Express —

The program is co-created with participants, to inspire & encourage them to explore and value their artistic expression and creativity, while uniting diverse communities across cultures & generations.

"Daydreamz' approach is unconventional, pairing creative exploration, with cultural awareness, and community building."

Youth join with senior citizens and community artists to create their own unique messages thru images, songs, movement, or drama.

They develop their creations for FUN, family, neighbors, or those in need. We then CELEBRATE their accomplishments in galleries, performances, or as public art for local spaces.

- Activities -
